► INOX F3 DESKTOP

Water machine for home and office.

INOX F3 Desktop combines elegance and high quality performance in a modern and stylish water dispenser in stainless steel. Designed to be used in offices, commercial establishments, schools or any other public facilities. INOX is perfect for those who appreciate refinement and elegance along with the added value of a fridge in the lower half of the dispenser. The INOX water dispenser has been manufactured to the highest quality standards.

CHARACTERISTICS:

1. Easy to reach filters for replacement and maintenance.
2. Water dispenser with two temperatures: Cold and hot or room temperature water.
3. Childproof system in the hot water tap. A double movement is needed to be able to pour water in the cup.
4. Removable tray.
