► **NOXTER F3**

Purified water machine.

NOXTER F3 combines elegance and high performance in a modern and stylish water cooler. Designed to be used in offices, commercial establishments, schools or any other public facilities. NOXTER F3 is perfect for those who appreciate refinement and elegance. The NOXTER F3 water dispenser has been manufactured to the highest quality standards.

CHARACTERISTICS:

1. Easy to reach filters for replacement and maintenance.
2. Water dispenser with two temperatures: Cold and hot or room temperature water.
3. Childproof system in the hot water tap. A double movement is needed to be able to pour water in the cup.
4. Removable tray.

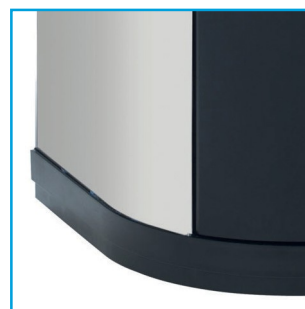

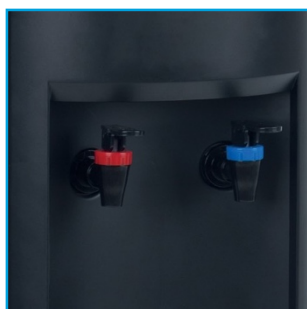

Ficha técnica
